A.M. BRIEFING

BAY AREA

■ BERKELEY OFFICIALS will put signs on all the fallout shelters saying there's really no shelter from a nuclear war. A-15.

■ THE HOUSE investigates Rep. Dellums and his staff for the alleged purchase and use of marijuana and cocaine. A-13.

■ ALAMEDA COUNTY finally feels the 1978 taxpayer revolt as supervisors prepare for the possibility of employee layoffs. A-13.

■ SECURITY WAS the largest share of the $111,000 it cost San Francisco for the visit of Queen Elizabeth and Prince Phillip. A-15.

■ REPORTER PAT Radin talks with British anti-nuclear war activist Kathy Rudolph, visiting her family in California. B-1.

■ TELEVIDEO SYSTEMS Inc. of Sunnyvale goes public, raising $112.5 million with its initial stock offering. C-1.

■ THE COLLAGEN Corp. of Palo Alto, making biomedical products, intends to build a plant in Fremont this summer. C-1.

■ VOLUNTEER RIDERS sublimate cowboy fantasies, says George Estrada, patrolling the East Bay Regional Park District. E-1.

STATE

■ DOUBLED PHONE rates for the elderly are assailed in a utilities commission hearing on a $985 million rate increase. A-11.

■ THE STATE Supreme Court clears the way for a swift retrial for murder for Korean-American Chol Soo Lee. A-11.

■ A STATE commission reluctantly recommends a fee for all 1.3 million students of the 107 two-year community colleges. A-5.

NATION

■ THE WHITE House goes in a mock sheriff's sale as 2,000 of the unemployed gather in Washington chanting "Fire Reagan." A-3.

■ SPEAKER O'NEILL and White House press secretary Speakes agree that the House is near endorsement of a nuclear freeze. A-4.

■ A MOON meteorite in Antarctica and nine that may have come from Mars change an old theory about meteorite origins. A-5.

■ ORDINARY AMERICANS, not just crime and drug figures, are hiding billions from federal tax collectors in Caribbean banks. B-1.

WORLD

■ THE SOVIET Union undercuts OPEC's official price in an attempt to retain or enlarge its slim oil market in Europe. A-7.

■ ATTACKERS WITH machine guns and rocket grenades ambush Italian peacekeepers near Beirut airport in Lebanon. A-10.

■ REBEL RADIO in El Salvador says leftist guerrillas captured a government base and U.S. arms on the volcano San Vicente. A-10.

■ ITS DIVORCE rate climbed 40 percent in 10 years and the Soviet Union tries counseling to keep the family together. E-1.

OPINION

■ THE REAGAN administration finds Cuba and the Soviet Union to blame for an El Salvador crisis that is homegrown. B-4.

■ THE VIETNAMESE hold on Cambodia remains strong, and the Khmer Rouge has the support of the U.S. and the world. B-5.

WEATHER

■ CLOUDY TODAY with a chance of rain; rain tonight, heavy at times, with southerly winds 20 to 40 mph, higher in gusts. A-2.

Land in national forests chosen for possible sale

Tribune photo by Bill Crouch

SHOCK TREATMENT PROTEST — Berkeley police arrested 19 people Tuesday at a demonstration protesting Herrick Hospital's resumption of electroshock therapy. Some 200 protested the therapy, which was banned in Berkeley by a city ballot measure approved by voters in November. However, in January, a Superior Court judge issued a preliminary injunction to prevent the ban from going into effect. Story, A-15.

723,975 acres in California are included

From Tribune and wire reports

The federal government singled out 6 million acres of national forest land on Tuesday for study to determine whether they eventually should be sold.

The 6 million acres, including 723,975 acres scattered throughout California, are identified for possible sale in a proposal that would require drafting precedent-setting legislation by Congress before it could go forward.

John Belluardo, Forest Service press officer in San Francisco, said raising needed federal revenue is the reason for the proposal, but he said the sale would not violate the historic stewardship role given to the Forest Service to protect public lands for posterity.

"These are not typical Forest Service lands," he said. "Most of them are isolated parcels. The purpose is to dispose of lands that are inefficient to manage or no longer needed for public use."

He said most of the parcels range from 1,000 to 10,000 acres each in 17 of California's 18 national forest preserves. The greatest number of acres identified in any one park for possible sale is 85,000 acres in the Los

Nuclear fuel casks unsafe for roads, researcher says

By Kathy O'Toole
Tribune Staff Writer

The casks used to transport highly radioactive nuclear power plant fuel on the nation's highways are unsafe for today's road conditions, a public-interest research group charged Tuesday.

The shipping casks, for example, are not built to withstand fires that reach temperatures as high as in last year's Caldecott Tunnel fire. Nor are they tested to withstand a fall from overpasses as high as several on interstate highways in the Eastbay, said Marvin Resnikoff, a nuclear physicist commissioned by the New York-based Council on Economic Priorities to conduct a two-year review of government, industry and academic data on nuclear fuel transportation.

The council suggested Congress change the December 1982 Nuclear Waste Disposal Act, which commits the federal government to building temporary storage facilities for the spent nuclear reactor fuel from the nation's 73 operating commercial nuclear power plants. That law

Democrats back defense cuts

By William J. Eaton
Los Angeles Times

WASHINGTON — Key House Democrats agreed Tuesday on a reduction of $9 billion in President Reagan's military spending request as part of a new Democratic "growth and fairness" budget plan.

The 20 Democrats on the House Budget Committee also decided to support $30 billion worth of tax increases to help reduce the deficit by $7 billion for the fiscal year starting next Oct. 1.

Their decision came as the Senate Budget Committee, bowing to the president's wishes, agreed to put off a showdown vote on Reagan's controversial defense budget for three weeks to give him more time to reach agreement on a lower figure for arms outlays.

Rep. James R. Jones, D-Okla., chairman of the House budget panel, said he hoped to finish work this week on a spending plan that would be sent to the House for passage next week before the Easter recess begins.

Sen. Pete V. Domenici, R-N.M., chairman of the Senate Finance Committee, agreed to the postponement after Reagan personally requested a delay until April 6 on the Senate budget resolution so he could seek an "accommodation" with congressional critics.

Oakland schools protest trim in aid

By Virgil Meibert
Tribune Sacramento Bureau

Oakland school officials Tuesday protested that a threatened $114 million statewide cut in school aid this spring will plunge the district into a $1.5 million deficit.

Associate Superintendent Paul Disario told the Assembly Education Committee that Oakland schools did away with $8.5 million worth of programs this year in order to come up with a "precariously balanced budget" only to learn in late February that the state may withhold another $1.5 million from the city's schools.

Disario said a report on the district's latest fiscal crisis will be presented to the board of education tonight.

Pointing out that Oakland schools are already threatened with the possibility of a $12.8 million budget deficit next year, he said the added loss of state funds would wipe out an antici-

Peralta, Greene negotiating resignation

By David Alcott
Tribune Staff Writer

The Peralta Community College Board of Trustees has authorized its legal agent to "negotiate regarding resignation" with Merritt College President John Greene, Trustee Kenneth Hoh said Tuesday.

Hoh was reluctant to confirm reports that Greene has already submitted his resignation.

Hoh said the board was frustrated by stymied leadership at Merritt College because of pending criminal charges against Greene and has decided to seek his replacement.

The 42-year-old Greene has been on special assignment while retaining his $51,000 president's salary since being charged last May with

$40 million funding planned for Oakland project's firm

By Lonnie Isabel
Tribune Staff Writer

The Oakland City Council learned Tuesday night that the three remaining blocks in the city's downtown redevelopment project, Trans Pacific Centre, are central to the financial restructuring of the Hong Kong company developing the project.

Steve Goldfarb, attorney for the city on redevelopment issues, told the council the company was undertaking a $40 million restructuring plan involving the Hong Kong Shanghai Bank.

Goldfarb denied reports in the Asian Wall Street Journal that he and George Williams, the city's top redevelopment official, were unable to talk with bankers who put together the plan to aid the company, Asian Holdings Inc., a subsidiary of Carrian Group.

Goldfarb and Williams went to Hong Kong to speak with Carrian chief George Tan. Tan, according to Goldfarb, assured them that Carrian would not sell the six-story building that recently opened in the project area, bounded by Broadway, Webster, 11th and 9th streets, nor the rights to develop the remaining three blocks.

Carrian promised to have its finances in order by May 1. The Asian Wall Street Journal has reported that the Carrian Group was built on shaky finances and could not repay its reported $1 billion in real estate loans.

Carrian also promised to repay the city all of its $6.7 million loan to the company "on or before" May 1. The loan was made to Asian Holdings for construction of a 330-space
